

Additional rapid care funding for 2016

From the 1st of April 2016, in addition to our standard Crisis Fund, HTW has a rapid care fund that will enable us to fully fund gas boilers/central heating and install the measures within 21 days for some of the most vulnerable people who are at greater at risk from cold conditions, and who need rapid assistance due to the severity of their illness.

Eligibility criteria for rapid care fund:

- Meet ALL HTW scheme criteria
AND
- Are most at risk from exposure to cold conditions and don't have access to hot water
OR
- Need rapid assistance because they have severe illnesses or have been without heating for a long time and have less chance of accessing other funds.

How to apply for the rapid care fund:

Complete the following sections of the HTW Crisis Fund application form:

- HIA agency details
- Client details
- Clients health
- Household information
- Net household income/savings and expenditure
- Property information

Note: The 'cost and funding of measures' section does not need to be completed, HTW will utilize npower's supply chain to obtain quotes and 100% fund measures if application is successful.

Send applications to:

Gayle Dawkes by email (GayleD@foundations.uk.com)

Outcomes:

Successful

If your application is successful the HTW team will fully fund and arrange for the installation of the required heating measure and you will be informed when the install has been completed.

Unsuccessful

If your application for rapid care funding isn't successful, the application will be returned to you and you can apply for standard Crisis Fund following the usual application process.
